Presenters Bio's and Presentation

Cst. Heather Bangle Bio

ALERT Internet Child Exploitation (ICE) Unit – Who, What, Where & Why
Presenter: Cst. Heather Bangle

Cst. Bangle has been a member with the RCMP for over 22 years. She served 6 ½ years in general duties before transferring to the ALERT Combined Forces Special Enforcement Unit in 2008. In 2011 Heather transferred within ALERT to the Southern Alberta ICE unit and has years of experience investigating all child exploitation offences committed online here in Canada and around the world. Cst. Bangle has received extensive training in regard to ICE, including the Digital Technologies for Investigators course, the Canadian Internet Child Exploitation course and the Advance Internet Child Exploitation course, all hosted by the Canadian Police College. She has received training for Online Covert Investigations, Peer to Peer Investigations and Search Warrant Drafting through the RCMP and is a qualified Child Forensic Interviewer. She has also been fortunate enough to attend several conferences and workshops specific to Internet Child Exploitation across North America where ICE investigators, and other agencies committed to the protection of children, are able to network and learn best practices for the always evolving world of the Internet and technology.

Cheers,
Heather

Constable Heather Bangle #49031
RCMP – ALERT
Southern Alberta Internet Child Exploitation Unit (I.C.E)

Dave Ainsworth, cpp`

Corporate Security Advisor

RCMP And Enforcement Services

Many presentations of this nature are for law enforcement or schools. Although well intended, the main focus becomes the shock and awe of Law Enforcement to help emphasize the role they are being asked to perform. Other presentations may use select statistics and the fear factor of those tragic days in order to sell a product that will help improve the client's survivability. Most presentations forget to focus on the lessons learned and the solutions that may be staring us in the face. Corporations are sometimes reluctant to even begin this type of training since it ties into the anxiety of the unknown for most since most people are informed of the incidents that have taken place by the media, who will tell you about how many people were hurt or died, it is normally in the headline of the article, but they do not give to the stories of those who survived or how.

That's the missing piece!

This presentation is different. Within it I will help the listener develop and understand their own plan along with realizations of how a company can better prepare for an incident like this long before it is ever a realization. We will do this together and built it around three simple instructions, "Run, Hide, Fight."

This sounds very simple, but understanding the information behind this can help a corporation or an individual build a plan for success. This will not be a "one glove fits all" presentation. It will open questions within yourself and your organizations. It will dispel some myths but will help create guidelines around the development of a good working plan. This presentation is just the beginning of the work we all need to be doing but never understood how to start that journey.

I have delivered this to over 9000 people and have even had people tell me that they were apprehensive to attend the presentation, but "left feeling empowered. I and am looking forward to meeting you all and help you build you plan to succeed.

The presentation itself is 2 hrs including 30 mins for questions. At the end of the presentation, you will receive 2 documents. 1) A 2-page summary of the training 2) A guideline of considerations when creating simple and complex drills for situations like this.

Karleen Schenkey

Investigator

The Safer Communities and Neighbourhoods (SCAN) units have been servicing Albertans since 2008.

SCAN targets problem properties in rural and urban Alberta where specified illegal activity is occurring regularly. This includes drug activity, prostitution and gang-related crime.

SCAN holds owners accountable for activity taking place on their property and supports landlords by helping them remove problem tenants who disrupt neighbourhoods.

SCAN is a confidential, community complaint process.

Karleen

Kimberly Hurst CPTED

Director 1 ACOPA

Kimberly joined Citizens On Patrol in 2013 and has been on the ACOPA Board since 2018. In October 2021, she completed Basic CPTED training with the Edmonton Police Service and is currently working with RCMP to assist local communities with assessments. Kimberly speaks at community meetings assisting RCMP, as well as local town and municipal governments. She organizes community events and initiatives that support the RCMP to break down the barriers the uniform can bring. One of the core initiatives Kimberly is involved in is "Shoes for Kids", bringing shoes to children/families on and off reserve. Other committees Kimberly serves on include, Police Advisory, Integrated Offender Management for Piikani Nation, Crowsnest Pass, Pincher Creek and Fort MacLeod as well as Southwest Alberta Rural Crime Watch. When not volunteering, Kimberly is a Youth Wellness worker at Napi Friendship Association engaging primarily with Indigenous youth. Kimberly is also a guard for RCMP within the Crowsnest Pass, Pincher Creek and Piikani Nation Detachments. Kimberly is passionate about helping communities become a safe and inclusive space for all.

Robert Gollan:

Train the Trainer

S/Sgt. Robert Gollan (Retired) joined the RCMP in 1982 when he was 21 years old. He served in three provinces, one territory and spent a year in Kosovo working with International Policing. During his time, he served in 14 Communities and was the detachment commander at 11 of these postings. He retired in 2017 with 35 years of service. Early on in his career he became involved in developing and presenting training programs both with-in and to external partners of the RCMP. Upon retiring from the RCMP he started working with a company out of Calgary providing Management Training to Government and Private agencies all over Canada. He has been involved in training with ACOPA since 2017 and has provided numerous courses during this time.
